INDEPENDENT AUDITOR'S REPORT

The Honorable Board of County Commissioners
and Constitutional Officers
Nassau County, Florida

We have audited the accompanying financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of Nassau County, Florida (the County) as of and for the year ended September 30, 2020, and the related notes to the financial statements, which collectively comprise the County's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express opinions on these financial statements based on our audit. We conducted our audit in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinions.

INDEPENDENT AUDITOR'S REPORT

Opinions

In our opinion, the financial statements referred to above present fairly, in all material respects, the respective financial position of the governmental activities, the business-type activities, each major fund, and the aggregate remaining fund information of the County, as of September 30, 2020, and the respective changes in financial position and, where applicable, cash flows thereof for the year then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis and required supplementary information, as listed in the table of contents be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Other Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise the County's basic financial statements. The introductory section is presented for purposes of additional analysis and is not a required part of the basic financial statements. The schedule of expenditures of federal awards and state financial assistance is presented for purposes of additional analysis as required by Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* and Chapter 10.550, *Rules of the Auditor General* of the State of Florida, and is also not a required part of the basic financial statements.

The schedule of federal awards and state financial assistance is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the schedule of expenditures of federal awards and state financial assistance is fairly stated in all material respects in relation to the basic financial statements as a whole.

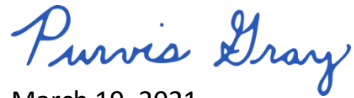

The Honorable Board of County Commissioners
and Constitutional Officers
Nassau County, Florida

INDEPENDENT AUDITOR'S REPORT

The introductory section has not been subjected to the auditing procedures applied in the audit of the basic financial statements and, accordingly, we do not express an opinion or provide any assurance.

Reporting Required by *Government Auditing Standards*

In accordance with *Government Auditing Standards*, we have also issued a report dated March 19, 2021, on our consideration of the County's internal control over financial reporting and our tests of its compliance with certain provisions of laws, regulations, contracts, and grants. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on the internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* and should be considered in assessing the results of our audit.

**MANAGEMENT'S DISCUSSION
AND ANALYSIS (MD&A)**

Management's Discussion and Analysis

This management's discussion and analysis of Nassau County's (the County) financial statements is designed to introduce the basic financial activities for the fiscal year ended September 30, 2020. The basic financial statements are comprised of the government-wide financial statements, fund financial statements, and footnotes. We hope this will assist readers in identifying significant financial issues and changes in the County's financial position.

Financial Highlights

- The assets of the County and deferred outflows of resources exceeded its liabilities and deferred inflows of resources at the close of fiscal year 2020 by \$416,892,225 (net position). The net position included governmental activities of \$402,118,374 and business-type activities of \$14,773,851.
- The County had an excess of revenues to expenses of \$8,715,633 for the fiscal year, compared to an excess of \$11,948,563 in the prior year. General revenues and transfers increased by \$3,766,718 including increases of \$7,015,948 in property tax revenue and \$234,460 in state revenue sharing. There was a decrease in sales tax revenue of \$2,952,270. The year-to-year deficit in program revenues, net of expenses, increased from \$98,304,243 in the prior year to \$105,303,891 in fiscal year 2020, due primarily to a \$17,764,494 increase in program expenses. The increase included an \$8,911,933 increase in public safety expenses and a \$2,834,640 increase in general government expenses. A substantial portion of the increase in program expense relates to the County's share of the increase in the Florida Retirement System's (FRS) net pension liability, as well as substantial expenditures that were incurred to address the COVID-19 pandemic. The program expense increases in fiscal year 2020 was offset by a \$10,764,846 increase in program revenues. The increase consisted of an \$8,577,659 increase in operating grants and contributions (including CARES Act grant funds), a \$3,257,717 increase in capital grants and contributions and a \$1,070,530 decrease in charges for services.
- The General Fund reported an excess of revenues to expenditures of \$18,156,275 compared to an excess of \$20,892,056 in the prior fiscal year. General Fund ad valorem tax revenues were up \$5,400,005 compared to the prior year due to an increase in the County's taxable assessed value. A \$693,056 decrease in transfers-in, as well as a \$4,205,610 decrease in transfers-out, contributed to the operating surplus, resulting in a change in General Fund balance of \$12,114,662 and an ending fund balance on September 30, 2020 of \$40,652,464.
- The Water and Sewer proprietary fund reported a change in net position of \$1,192,526 in fiscal year 2020. This increase is significantly less than the change in net position of \$1,492,704 in the prior fiscal year.
- Outstanding long-term bonded debt and notes as of September 30, 2020, was \$33,672,336, a reduction of \$2,412,280 from the prior year. Of this amount, \$2,884,436 is considered due within one year.

Overview of the Financial Statements

This management's discussion and analysis is intended to serve as an introduction to the County's basic financial statements. The County's basic financial statements are comprised of three components: 1) government-wide financial statements, 2) fund financial statements, and 3) notes to the financial statements. This report also contains other supplementary information in addition to the basic financial statements themselves. Below is a breakdown of Nassau County's fund types by count.

Management's Discussion and Analysis

<u>Fund Type</u>	<u>Number</u>
General Fund	1
Debt Service Funds	2
Capital Projects Funds	7
Special Revenue Funds	<u>34</u>
Total Governmental Funds	44
Total Proprietary Funds	1
Total Agency Funds	11

Government-Wide Financial Statements

The government-wide financial statements, which consist of the following two statements, are designed to provide the reader with a broad overview of the County's finances in a manner similar to private sector business. The statement of net position presents information on all of the County's assets, deferred outflow of resources, liabilities, and deferred inflows of resources, with the difference between them reported as net position. Over time, increases or decreases in net position may serve as a useful indicator of whether the financial position of the County is improving or deteriorating.

The statement of activities presents information showing how the government's net position changed during the fiscal year. All changes in net position are reported as soon as the underlying event giving rise to the change occurs, regardless of the timing of the related cash flows. Thus, revenues and expenses are reported in this statement for some items that will only result in cash flows in future fiscal periods (e.g., uncollected earned revenues such as sales taxes and earned but unused vacation leave).

Both of these financial statements distinguish functions of the County that are principally supported by taxes and intergovernmental revenues (governmental activities) from other functions that are intended to recover all or a significant portion of their costs through user fees and charges (business-type activities). The governmental activities of the County include general government, physical environment, public safety, court-related, transportation, economic environment, human services, and culture/recreation. The business-type activities consist of the water and sewer utilities.

The government-wide financial statements include not only the County itself (known as the primary government), but also the following legally separate component units: Nassau County Housing Finance Authority and Recreation and Water Conservation and Control District No. 1. These component units had no revenues or expenditures during the fiscal year ended September 30, 2020; therefore, financial statements were not prepared for these component units.

Fund Financial Statements

A fund is a grouping of related accounts that is used to maintain control over resources that have been segregated for specific activities or objectives. The County, like other state and local governments, uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. All of the funds of the County can be divided into three categories: 1) governmental funds, 2) proprietary funds, and 3) fiduciary funds.

Governmental funds are used to account for essentially the same functions reported as governmental activities in the government-wide financial statements. However, unlike the government-wide financial statements, governmental fund financial statements focus on *near-term* inflows and outflows of spendable resources, as well as on balances of spendable resources available at the end of the fiscal year. Such information may be useful in evaluating a government's *near-term* financing requirements.

Management's Discussion and Analysis

Because the focus of governmental funds is narrower than that of the government-wide financial statements, it is useful to compare the information presented for the governmental funds with similar information presented for governmental activities in the government-wide financial statements. By doing so, readers may better understand the long-term impact of the government's *near-term* financing decisions. Both the governmental fund balance sheet and the governmental fund statement of revenues, expenditures, and changes in fund balances provide a reconciliation to facilitate this comparison between governmental funds and governmental activities.

The County maintains forty-four (44) individual governmental funds. Information is presented separately in the governmental fund balance sheet and in the governmental fund statement of revenues, expenditures, and changes in fund balances for the General Fund, County Transportation Fund, Municipal Services Fund, Capital Projects Transportation Fund, and Comprehensive Impact Fee Ordinance Fund, which are considered to be major funds. Data from the remaining governmental funds are combined into a single, aggregate presentation. Individual fund data for each of these non-major governmental funds is provided in the form of combining statements elsewhere in this report.

The County adopts an annual appropriated budget for all of its major funds, as well as all non-major funds. Budget comparison schedules have been provided for these funds to demonstrate budgetary compliance.

The County maintains one type of proprietary fund type, an enterprise fund. Enterprise funds are used to report the same functions presented as business-type activities in the government-wide financial statements. The County uses one enterprise fund to account for the fiscal activities relating to water and sewer utilities. Proprietary funds provide the same type of information as the government-wide financial statements only in more detail. The proprietary fund financial statements provide separate information for the water and sewer utilities.

Fiduciary funds are used to account for resources held for the benefit of parties within and outside the government. Fiduciary funds are not reflected in the government-wide financial statements because the resources of those funds are not available to support the County's own programs, except for those that are within the government. The accounting used for fiduciary funds is similar to proprietary funds.

Notes to the Financial Statements

The notes provide additional information that is essential to a full understanding of the data provided in the government-wide and fund financial statements.

Other Information

In addition to the basic financial statements and accompanying notes, this report presents certain required supplementary information concerning the County's comparison of budget and actual revenues and expenditures for its major funds. This report also presents certain other information concerning the County's combining non-major fund statements and schedules.

Management's Discussion and Analysis

Government-Wide Financial Analysis

As noted earlier, net position may serve over time as a useful indicator of a government's financial position. In the case of the County, assets and deferred outflows of resources exceeded liabilities and deferred inflows of resources by \$416,892,225 at the close of the fiscal year ended September 30, 2020.

At the end of the fiscal year 2020, the County is able to report a positive balance in net position for its governmental activities of \$402,118,374 as well as a positive balance in net position for its business-type activities of \$14,773,851.

As of the end of fiscal year 2020, the County's total net position of \$416,892,225 includes \$385,877,895 (92.6%) of net investments in capital assets such as land, buildings, infrastructure, improvements and equipment, less any outstanding debt used to acquire those capital assets. The County uses these capital assets to provide services to the citizens; consequently, these assets are not available for future spending.

Although the County's investment in its capital assets is reported net of related debt, it should be noted that the resources needed to repay this debt must be provided from other sources, since the capital assets themselves cannot be used to liquidate these liabilities. An additional portion of the County's net position, \$63,014,056 (15.1%), represents resources that are subject to external restriction on how they may be used. On September 30, 2020, the County had a net pension liability for its participation in the Florida Retirement System of \$104.7 million, a net OPEB obligation of \$27.3 million, and a landfill post-closure liability of \$16.3 million, which contributed to an unrestricted net position of \$(31,999,726).

Governmental Activities

Fiscal year 2020 governmental activities increased the County's net position by \$7,523,107 to \$402,118,374. Governmental activities revenues exceeded expenses by \$7,457,988 in fiscal year 2020 compared to the prior year excess of \$10,391,058. Factors contributing to this year-over-year change in net position include a \$3,791,356 increase in general revenue and transfers, a \$10,754,939 increase in governmental program revenues and a \$17,479,047 increase in governmental program expenses.

Management's Discussion and Analysis

Analysis of the County's Fund Financials

As noted earlier, the County uses fund accounting to ensure and demonstrate compliance with finance-related legal requirements. The focus of the County's governmental funds is to provide information on *near-term* inflows, outflows, and balances of spendable resources. Such information is useful in assessing the County's financing requirements. In particular, unassigned fund balance may serve as a useful measure of government's net resources available for spending at the end of the fiscal year.

As of the end of fiscal year 2020, the County's governmental funds reported combined ending fund balances of \$129,041,611. This represents an increase of \$18,588,223 when compared to the prior year ending balance. A portion of fund balance in the amount of \$53,011,015 is internally designated by the County for a specific purpose or available to be spent at the County's discretion. The remainder of fund balance in the amount of \$76,030,596 is non-spendable, restricted or committed to indicate that it is not available for new spending because it has already been committed for: 1) inventories, 2) prepaid items, 3) grants, 4) state law, or 5) constrained by external third parties.

The general fund is the main operating fund of the County. At the end of fiscal year 2020, the general fund had a total fund balance of \$40,652,464, an increase of \$12,114,662 from the prior year. General fund revenues increased by \$5,885,199 when compared to the prior fiscal year, due primarily to a \$4,765,918 increase in tax revenue and a \$605,558 increase in intergovernmental revenues. The net increase in tax revenue resulted from an increase in Ad Valorem taxes and a decrease in one-cent taxes. Expenditures in the general fund increased year to year by \$8,620,980. Major components of this increase included a \$4,645,249 increase in public safety expenditures and a \$1,817,054 increase in general government expenditures. Transfers-in of \$3,717,362 (a \$693,056 decrease from fiscal year 2019), as well as transfers-out of \$10,542,884 (a \$4,205,610 decrease from fiscal year 2019), also contributed to a net change in fund balance of \$12,114,662 and an ending fund balance of \$40,652,464.

A majority of the fund balance in the general fund in the amount of \$36,368,211 is internally designated by the County for a specific purpose or available to be spent at the County's discretion. The remainder of fund balance in the amount of \$4,284,253 is non-spendable, restricted or committed. As a measure of the General Fund's liquidity, it may be useful to compare the unassigned fund balance and total fund balance to total fund expenditures. Unassigned fund balance represents 9.6% of the total General Fund expenditures. Total fund balance represents 54.4% of that same amount.

At the end of fiscal year 2020, the transportation fund had a fund balance of \$8,340,473, an increase of \$584,263 when compared to the prior year fund balance. The increase was primarily due to a \$937,518 surplus of revenues to expenditures and a \$364,750 deficiency of transfers-in to transfers-out. The surplus of revenues to expenditures was mainly due to an increase in Ad Valorem taxes.

The municipal services fund had a total fund balance of \$11,092,581 at the end of fiscal year 2020. The net increase in fund balance of \$1,886,855 was primarily due to a \$2,886,941 excess of revenues to expenditures and a \$1,014,973 deficiency of transfers-in to transfers-out. The excess of revenue to expenditures was due in large part to an increase in Ad Valorem taxes.

The capital projects transportation fund had a fund balance of \$13,781,998 at the end of the fiscal year, a decrease of \$3,637,821 as compared to the prior year ending balance. The decrease was a result of expenditures exceeding revenues by \$6,428,321 and transfers-in of \$600,000 from the general fund and \$2,190,500 from the county transportation fund. The excess of expenditures over revenues was due primarily to increases in road projects and land acquisitions, resulting in increases in both repairs and maintenance and capital.

Management's Discussion and Analysis

The comprehensive impact fee ordinance fund had a fund balance of \$8,220,289 at the end of fiscal year 2020. This is a \$2,450,027 increase from the prior year, which is due solely to the collection of 2020 impact fees. There were no expenditures in the fund for 2020.

The County's proprietary fund provides the same type of information found in the government-wide financial statements, but in more detail. The water and sewer fund is reported as a major enterprise fund. The fund's overall net position increased by \$1,192,526 when comparing to the prior year. The increase was comprised of a \$954,836 increase in investment in capital assets, a \$374,304 increase in restricted net position and a \$136,614 decrease in unrestricted net position. Operating income in fiscal year 2020 of \$1,294,878 was down from prior year operating income of \$1,779,779. Operating revenues were nearly unchanged from year to year; however, operating costs increased by \$494,808 compared to fiscal year 2019.

Unrestricted net position of the water and sewer fund at the end of the fiscal year amounted to:

Fund	Unrestricted Net Position	
	2020	2019
Water and Sewer	\$ 8,267,399	\$ 8,404,013

Budgetary Highlights

Budget and actual comparison schedules are provided as Required Supplementary Information for the general fund and all major special revenue funds with annually appropriated budgets. Budget and actual comparison schedules are also provided in the Schedules of Revenues, Expenditures, and Changes in Fund Balances – Budget and Actual for all non-major funds with annually appropriated budgets. The budget and actual comparison schedules show the original budget, the final revised budget, actual results, and variance with final budget columns.

After the original budget is approved, it may be revised for a variety of reasons such as unforeseen circumstances, corrections of errors, new bond or loan proceeds, new grant awards, and other revenues. During fiscal year 2020, supplemental appropriations to the General Fund (Board only) budget were approximately \$16.6 million, or 16.6% of the original adopted budget.

- The major source of supplemental revenue was \$11,525,327 in adjustments for unanticipated cash forward. Other supplemental general fund revenues include \$4,238,599 in COVID-19 grant revenue, \$722,360 in regular grant revenue and donations of \$77,238.
- Major appropriations of the supplemental revenue include \$12,666,998 to Reserves, \$2,200,000 to Aid-Private Organizations, \$499,856 to Other Contractual Services and \$481,127 to Public Safety.
- The significant revenue budgetary variances in the general fund were mainly the result of a reduction in one-cent tax revenue, excess Cares Act grant revenue, and excess interest earned.
- The significant general fund budgetary expenditure variances resulted for the most part from CIP Projects that were budgeted but not expended in 2020. Many of these projects were scaled back in preparation of a projected revenue shortfall due to COVID-19. Other measures taken in preparation of COVID-19, which caused budget variances, included freezing vacant budgeted positions and deferring budgeted equipment replacements.

Management's Discussion and Analysis

Capital Assets

The County's investment in capital assets for its governmental and business-type activities as of September 30, 2020, amounted to \$420,434,074 (net of accumulated depreciation). This investment in capital assets includes land, buildings, improvements, equipment, infrastructure, and construction in progress. Additional information on Nassau County's capital assets can be found in Note 5 in Notes to Financial Statements.

Major capital asset events during the fiscal year include the following:

- Purchased right of way for the William Burgess Extension for \$2,396,231
- Completed a cattery expansion at the Yulee Animal Control Center for a cost of \$191,618
- Purchased a 2020 Freightliner vacuum truck for \$348,560
- Purchased a 2020 E-One tanker for fire station 60 for \$334,023
- Purchased vehicles and related equipment totaling \$1,803,431 under the fleet replacement plan
- Replaced the Emergency Operations Center HVAC unit for \$145,057
- Completed the improvement of the 911 Call Center communication system for \$197,613
- Started a fire station alert system with a budget of \$323,730

Management's Discussion and Analysis

Long-Term Obligations

At the end of the fiscal year, the County had total outstanding bonds, notes, and other long-term obligations, including net pension liability, and other postemployment benefits in the amount of \$190,756,238. The revenue bonds are collateralized by specific revenue sources while the remainder of the debt utilizes a covenant to budget and appropriate to pledge payment of the debt. The County's bonds payable decreased by \$3,058,561 in fiscal year 2020 with a balance outstanding of \$33,026,055 on September 30, 2020. The County also added a notes payable in 2020 with a fiscal year-end balance of \$646,281.

The County's outstanding obligations increased by \$29,048,942 in fiscal year 2020 primarily due to a \$24,887,057 increase in net pension liability, a \$3,157,568 increase in Other Postemployment Benefits and an increase of \$2,835,405 in Landfill Closure/Post Closure costs. These increases were partially offset by a \$3,058,561 reduction in bonds payable. Additional information on Nassau County's outstanding debt can be found in Note 8 in Notes to Financial Statements.

GOVERNMENTAL FUNDS
FOR THE YEAR ENDED SEPTEMBER 30, 2020

Net Change in Fund Balances - Total Governmental Funds \$ 18,588,223

**Amounts Reported for Governmental Activities in the Statement of Activities
are Different Because:**

Governmental funds report capital purchases as expenditures. However, in the statement of activities, the cost of those assets is depreciated over their estimated useful lives and reported as depreciation expense:

Expenditures for Capital Assets	\$ 19,877,069	
(Current Year Depreciation)	(23,573,759)	
Contributions of Capital Assets	286,787	
Loss on Disposal of Capital Assets	(83,457)	
		(3,493,360)

Certain revenues reported in the statement of activities are not considered current financial resources and, therefore, are not reported as revenue in the governmental funds.	8,990,986
--	-----------

Debt Proceeds provide current financial resources to governmental funds; however, entering into a promissory note increases long-term liabilities in the statement of net position.	(720,850)
---	-----------

Repayment of long-term debt principal is an expenditure in the governmental funds, but the repayment reduces long-term liabilities in the statement of net position.	2,245,952
--	-----------

The changes in net pension liability and pension related deferred outflows and inflows of resources result in an adjustment to pension expense in the statement of activities, but not in the governmental fund statements.	(13,957,122)
---	--------------

The changes in the OPEB liability and OPEB related deferred outflows and inflows of resources result in an adjustment to OPEB expense in the statement of activities, but not in the governmental fund statements.	(587,360)
--	-----------

Some expenses reported in the statement of activities do not require the use of current financial resources and, therefore, are not reported as expenditures in governmental funds:

Change in Accrued Interest Payable	26,979	
Amortization of Premiums	74,248	
Change in Post-Closure Liability	(2,835,405)	
Change in Accrued Compensated Absences	(809,184)

NASSAU COUNTY, FLORIDA
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2020

Note 1 - Summary of Significant Accounting Policies

The accounting policies of Nassau County (the County) conform to accounting principles generally accepted in the United States of America as applied to governmental units. The significant accounting policies followed by the County are described below to enhance the usefulness of the financial statements to the reader.

A. Reporting Entity

Nassau County is a political subdivision of the State of Florida. It is composed of an elected Board of County Commissioners and elected Constitutional Officers, who are governed by federal and state statutes, regulations, and County ordinances.

The Board of County Commissioners (Board) and the offices of the Clerk of the Circuit Court (Clerk), Tax Collector, Sheriff, Property Appraiser, and Supervisor of Elections are operated as separate County agencies in accordance with applicable provisions of Florida Statutes. The office of the Tax Collector operates on a fee system, whereby the officer retains fees, commissions, and other revenues to pay all operating expenditures, including statutory compensation, any excess income is remitted to the Board or other taxing districts at the end of the fiscal year. The office of the Property Appraiser operates on a budget system, whereby appropriated funds are received from the Board and taxing authorities and all unexpended appropriations are required to be returned to the Board and taxing authorities at year-end. The offices of the Sheriff and Supervisor of Elections operate on a budget system, whereby County-appropriated funds are received from the Board, and any unexpended appropriations are required to be returned to the Board at the end of the fiscal year. The office of the Clerk of the Circuit Court operates on a combined fee and budget system. The budget system relates to the Clerk's function as the accountant and the Clerk of the Board, in accordance with the provisions of Section 125.17, Florida Statutes. Beginning July 1, 2013, the court-related operations of the Clerk are funded from fees and charges authorized under Chapter 2013-44, Laws of Florida. Any excess of revenues and other financing sources received over expenditures of the general fund are remitted to the Board at year-end. Any excess of revenues over court-related expenditures of the court fund are remitted to the State of Florida at year-end.

The accompanying financial statements present the County (primary government), and the component units for which the County is considered to be financially accountable. Also included are other entities for which the nature and significance of their relationship with the County are such that exclusion could cause the County's basic financial statements to be misleading or incomplete.

The Nassau County Housing Finance Authority (NCHFA) is a dependent special district, which functions for the benefit of the citizens of Nassau County and is considered a blended component unit of the County. The NCHFA had no revenues or expenditures during the fiscal year ended September 30, 2020. In addition, the NCHFA did not issue any bonds during the audit period, nor were there any bonds outstanding at year-end. Therefore, financial statements were not prepared for NCHFA and, accordingly, no financial data for NCHFA is presented in these financial statements.

NASSAU COUNTY, FLORIDA
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2020

The Recreation and Water Conservation and Control District No. 1 (RWCCD) is a dependent special district, which functions for the benefit of the citizens of the County and is considered a blended component unit of the County. The Board of County Commissioners sits as the governing body. The RWCCD had no revenues or expenditures during the fiscal year ended September 30, 2020. In addition, the RWCCD did not issue any bonds during the audit period, nor were there any bonds outstanding at year-end. Therefore, financial statements were not prepared for RWCCD and, accordingly, no financial data for RWCCD is presented in these financial statements.

B. Government-Wide and Fund Financial Statements

The government-wide financial statements (i.e., the statement of net position and the statement of activities) report information on all the non-fiduciary activities of the County.

These statements include separate columns for the governmental and business-type activities of the primary government and its component units. Generally, the effect of the interfund activity has been eliminated from these statements, unless interfund services were provided. Governmental activities, which normally are supported by taxes and intergovernmental revenues, are reported separately from business-type activities, which rely to a significant extent on fees and charges for support.

The statement of activities shows the degree to which the direct expenses of a given function or segment are offset by program revenues. Direct expenses are those that are clearly related to a specific function or segment. Program revenues include: (a) charges to customers or applicants who purchase, use, or directly benefit from goods, services, or privileges provided by a given function or segment; and (b) grants and contributions that are restricted to meeting specific requirements of a particular function or segment. Taxes and other items not properly included among program revenues are reported as general revenues.

Separate financial statements are provided for governmental funds, proprietary funds, and fiduciary funds, even though the latter are excluded from the government-wide financial statements. Major individual governmental funds and major enterprise funds are reported as separate columns in the fund financial statements.

C. Fund Accounting

The accounts of the County are organized on the basis of funds, each of which is considered a separate accounting entity. The operations of each fund are accounted for with a separate set of self-balancing accounts that comprises its assets, deferred outflows of resources, liabilities, deferred inflows of resources, fund balances, or net position, as appropriate, revenues and expenditures or expenses, as appropriate. Government resources are allocated to, and accounted for, in individual funds, based upon the purposes for which they are to be spent and the means by which spending activities are controlled. The various funds are organized by governmental funds, proprietary funds, and fiduciary funds in the financial statements. The following funds are used by the County:

■ **Governmental Funds**

● **Major Governmental Funds**

- ▶ The **General Fund**—is used to account for all revenues and expenditures applicable to the general operations of the County, which are not properly accounted for in other funds. The General Fund for the County includes the General Fund for the Board and each of the Constitutional Officers. The effect of interfund activity has been eliminated from these financial statements.

NASSAU COUNTY, FLORIDA
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2020

- ▶ The **County Transportation Fund**—is used to account for the operation of the Road and Bridge Department. Financing is provided principally by ad valorem taxes and the County's share of State gasoline taxes.
- ▶ The **Municipal Services Fund**—is used to account for activities benefiting only the unincorporated areas of the County. Financing is provided principally by ad valorem taxes and state revenue sharing.
- ▶ The **Capital Projects - Transportation Fund**—is used to account for all financial resources used for the acquisition or construction of major transportation related capital facilities and/or projects. Funding is provided from a variety of funding sources.
- ▶ The **Comprehensive Impact Fee Ordinance Fund**—use to account for the district expenditures associated with capital expansion. Funding is provided from impact fees on new constructions.
- **Non-Major Governmental Funds**
 - ▶ **Special Revenue Funds**—are used to account for the proceeds of specific revenue sources other than major capital projects or to finance specified activities as required by law.
 - ▶ **Debt Service Funds**—are used to account for the accumulation of resources for, and the payment of, interest, principal, and related costs on general long-term debt.
 - ▶ **Capital Projects Funds**—are used to account for all financial resources used for the acquisition or construction of major capital facilities, other than those financed by proprietary funds.
- **Major Proprietary Funds**
 - **Proprietary Funds**—are used to account for operations either: (1) that are financed and operated in a manner similar to private business enterprises where the intent of the governing body is that the costs (expenses, including depreciation) of providing goods or services to the general public on a continuing basis be financed or recovered primarily through user charges; or (2) where the governing body has decided that periodic determination of revenues earned, expenses incurred, and/or net income is appropriate for capital maintenance, public policy, management control, accountability, or other purposes.
 - ▶ **The Water and Sewer Fund**—accounts for water and wastewater services provided to approximately 3,300 customers on 4,800 acres located entirely in the County, situated north of the Duval County line and south of the City of Fernandina Beach.
- **Fiduciary Funds**

Agency funds are used to account for assets held by the County as an agent for individuals, private organizations, other governments, and/or other funds; examples include cash bonds, traffic fines, support payments, and ad valorem taxes.

D. Measurement Focus

- **Government-Wide Financial Statements**—The government-wide financial statements are accounted for on an “economic resources” measurement focus. Accordingly, all assets, deferred outflows of resources and liabilities and deferred inflows of resources are included on their Statement of Net Position, and the reported net position (total reported assets plus deferred outflows of resources less total reported liabilities and deferred inflows of resources) provides an indication of the economic net worth of the funds. The statement of activities reports increases (revenues) and decreases (expenses) in total net position.
- **Governmental Funds**—General, special revenue, debt service, and capital projects funds are accounted for on a “current financial resources” measurement focus. This means that only current assets, deferred outflows of resources, current liabilities, and deferred inflows of resources are generally included on the balance sheet. Accordingly, the reported fund balances are considered a measure of available, spendable, or appropriable resources. Governmental funds operating statements present increases (revenues and other financing sources) and decreases (expenditures and other financing uses) in fund balances.
- **Proprietary Funds**—The enterprise funds are accounted for on an “economic resources” measurement focus. Accordingly, all assets, deferred outflows of resources, liabilities and deferred inflows of resources are included on their Statement of Net Position, and the reported net position provides an indication of the economic net worth of the funds. The operating statements for the proprietary funds report increases (revenues) and decreases (expenses) in total net position.

Proprietary funds distinguish *operating* revenues and expenses from *non-operating* items. Operating revenues and expenses generally result from providing services and producing and delivering goods in connection with a proprietary fund’s principal ongoing operations. The principal operating revenues are charges for services. Operating expenses include cost of sales and services, administrative expenses, and depreciation on capital assets. All revenues and expenses not meeting this definition are reported as non-operating revenues and expenses.

- **Fiduciary Funds**—Agency funds are custodial in nature (assets equal liabilities) and do not present results of operations or have a measurement focus. Agency funds are accounted for using the accrual basis of accounting.

E. Basis of Accounting

Basis of accounting refers to when revenues and expenditures or expenses are recognized in the accounts and reported in the financial statements. In addition, basis of accounting relates to the timing of the measurements made, regardless of the measurement focus applied.

The government-wide financial statements are accounted for using the accrual basis of accounting. Under this method, revenues are recognized when they are earned and expenses are recognized when they are incurred.

All governmental funds are accounted for using the modified accrual basis of accounting. Under this method, revenues are recognized in the accounting period when they become susceptible to accrual (i.e., when they become “measurable and available”).

NASSAU COUNTY, FLORIDA
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2020

“Measurable” means the amount of the transaction can be determined and “available” means collectible within the current period or soon enough thereafter to pay liabilities of the current period. The County considers revenues to be “available” if they are collected within sixty days after year-end.

Primary revenues, including special assessments, intergovernmental revenues, charges for services, rents, and interest, are treated as susceptible to accrual under the modified accrual basis. Other revenue sources are not considered measurable and available, and are not treated as susceptible to accrual. Expenditures are generally recognized under the accrual basis of accounting when the related fund liability is incurred. However, debt service expenditures, as well as expenditures related to compensated absences, pensions, and other postemployment benefits, are recorded only when payment is due.

The proprietary funds and agency funds are accounted for using the accrual basis of accounting. Under this method, revenues are recognized when they are earned and expenses are recognized when they are incurred.

F. Cash and Cash Equivalents

For purposes of these financial statements, cash and cash equivalents are considered cash in bank, demand deposits, and short-term investments with maturities of less than three months.

For purposes of the statement of cash flows, the enterprise funds consider all highly liquid investments, including restricted assets, with a maturity of three months or less when purchased to be cash equivalents.

G. Deposits and Investments

The County’s investment practices are governed by Section 218.415, Florida Statutes, and County Ordinance 95-144. The County is allowed to invest in: (1) obligations of the United States or its agencies and instrumentalities; (2) other obligations, the principal of and interest on, which are unconditionally guaranteed or insured by the United States; (3) certificates of deposit issued by state or national banks domiciled in Florida that are guaranteed or insured by the Federal Deposit Insurance Corporation (FDIC) or its successor; (4) interest-bearing demand deposits; (5) fully collateralized direct repurchase agreements, secured by obligations described in subdivisions (1) and (2) above, and pledged with third parties selected or approved by the Board; (6) commercial paper; (7) corporate bonds; (8) derivative securities limited to those types authorized in (1) through (7) above; and (9) the Local Government Surplus Funds Trust Fund (the Florida State Board of Administration).

H. Accounts Receivable

Accounts receivable are reported net of the allowance for uncollectibles on the balance sheet - governmental funds and statement of net position - proprietary funds. The allowances for uncollectible accounts are based upon aging schedules of related collection experiences of such receivables.

I. Interfund Balances

Activity between funds that are representative of lending/borrowing arrangements outstanding at the end of the fiscal year are referred to as “due to/from other funds” in the fund financial statements. Any residual balances outstanding between the governmental activities and the business-type activities are reported as “internal balances” in the government-wide financial statements.

NASSAU COUNTY, FLORIDA
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2020

J. Inventories and Prepaid Items

Inventories, consisting principally of expendable items held for consumption, are determined by physical count and are stated at cost based on the average-cost method. On the balance sheet - governmental funds, the prepaid and inventory balances reported are offset by a non-spendable fund balance classification which indicates these balances do not constitute "available spendable resources" even though it is a component of net current assets. The cost of governmental fund-type inventories is recorded as expenditure when consumed; therefore the inventory asset amount is not available for appropriation.

Prepaid items are certain payments to vendors that reflect costs applicable to future accounting periods and are recorded, under the consumption method, as prepaid items in both government-wide and fund financial statements.

K. Unamortized Refunding Loss

Losses resulting from the refunding of debt are reported as deferred outflow of resources and recognized as a component of interest expense over the remaining life of the refunded debt or the new debt, whichever is shorter.

L. Fund Balance

Fund balance is reported in five components – non-spendable, restricted, committed, assigned, and unassigned:

- **Non-Spendable**—This component of fund balance consists of amounts that cannot be spent because: (a) they are not expected to be converted to cash, or (b) they are legally or contractually required to remain intact. Examples of this classification are prepaid items, inventories, and principal (corpus) of an endowment fund.
- **Restricted**—This component of fund balance consists of amounts that are constrained either: (a) externally by third parties (creditors, grantors, contributors, or laws or regulations of other governments), or (b) by law through constitutional provisions or enabling legislation.
- **Committed**—This component of fund balance consists of amounts that can only be used for specific purposes pursuant to constraints imposed by formal action (e.g., ordinance) of the organization's governing authority (the Board of County Commissioners). These committed amounts cannot be used for any other purpose unless the Board of County Commissioners removes or changes the specified use by taking the same type of action (e.g., ordinance) employed to constrain those amounts.
- **Assigned**—This component of fund balance consists of amounts that are constrained by less-than-formal action of the County's governing body (e.g., resolution). The County's fund balance policy was adopted under the County's resolution No. 2013-105. Changes in assigned fund balance require prior approvals from the governing body through less-than-formal action (e.g., resolution), the County Manager and Budget Officer. In addition, residual balances in capital projects and debt service funds are considered assigned for the general purpose of the respective funds.
- **Unassigned**—This classification is used for: (a) negative unrestricted fund balances in any governmental fund, or (b) fund balances within the general fund that are not restricted, committed, or assigned.

NASSAU COUNTY, FLORIDA
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2020

■ **Flow Assumption**

When both restricted and unrestricted resources are available for use, it is the County's policy to use restricted resources first, then unrestricted resources (committed, assigned, and unassigned) as they are needed. When unrestricted resources (committed, assigned, and unassigned) are available for use in any governmental fund, it is the County's policy to use committed resources first, then assigned, and then unassigned as needed.

M. Net Position

Net position of proprietary funds, governmental activities, and business-type activities are made up of three components. *Net investment in capital assets* represents net capital assets less related long-term liabilities, where unspent debt proceeds increase this amount. *Restricted net position* represents assets that are legally restricted for specific purposes. They include bond sinking and reserve funds; special revenues restricted by statute, ordinance, and bond proceeds; and other sources restricted for capital projects or improvements. The balance of net position is considered *unrestricted net position*.

N. Restricted Assets

Certain resources in the water and sewer enterprise fund are set-aside for payment of capital reserves, renewal and replacement, and the utility system. These resources are classified as restricted cash and investments on the statement of net position because their use is limited. All cash and investments classified as restricted are the result of various bond indenture or other legal requirements. When both restricted and unrestricted resources are available for use, the County's practice is to use the restricted resources first, then unrestricted resources as they are needed.

O. Capital Assets and Long-Term Liabilities

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, traffic signals, stormwater drainage, and similar items) are reported in the applicable governmental or business-type activities column in the government-wide financial statements.

■ **Governmental Funds**

Purchases of capital assets are recorded as expenditures in the governmental funds when the assets are acquired. At year-end, the assets are capitalized at cost by the County in the statement of net position as part of the basic financial statements of the County.

The capital assets used in the operations of the Board of County Commissioners, Clerk of the Circuit Court, Tax Collector, Property Appraiser, and Supervisor of Elections are accounted for by the Board of County Commissioners because the Board holds legal title and is accountable for them under Florida law. In accordance with Florida Statutes, the Board also holds title and maintains all land and buildings used by the Sheriff.

The Sheriff, pursuant to Chapter 274, Florida Statutes, is accountable for and thus maintains capital asset records pertaining to equipment used in operations.

NASSAU COUNTY, FLORIDA
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2020

The County capitalizes all capital assets which have a cost of \$750 or more and a useful life in excess of one year with the following exceptions:

Capital Asset Category	Capitalization Threshold
Buildings	\$25,000
Building Improvements	Greater of \$25,000 or 10% of Original Value
Improvements to Land Other than Buildings	\$10,000
Land	All
Easements or Right-of-Way	\$10,000
Infrastructure:	
Roads	\$250,000
Subdivisions	\$250,000
Bridges	\$50,000
Sidewalks	\$10,000
Street Lighting System	\$25,000
Drainage Systems	\$50,000
Additions or Improvements to Infrastructure	Greater of \$100,000 or 10% of Original Cost

Capital assets, which include property, plant, equipment, and infrastructure assets (e.g., roads, bridges, sidewalks, traffic signals, stormwater drainage, and similar items) are reported in the applicable governmental or business-type activities column in the government-wide financial statements.

Such assets are valued at historical cost or estimated historical cost if actual historical cost is not available. Donated capital assets, donated works of art, and capital assets received in a service concession arrangement are reported at acquisition value rather than fair value. Property, plant and equipment are depreciated using the straight-line method over the following estimated useful lives:

Buildings and Infrastructure	15-40 Years
Machinery and Equipment	5-20 Years
Computer Equipment	2-5 Years

Long-term debt and other long-term liabilities are reported as liabilities in the applicable governmental activities, business-type activities, or proprietary fund statement of net position. Bond premiums and discounts are deferred and amortized over the life of the bonds using the effective interest method. Bonds payable are reported net of the applicable bond premium or discount.

In the fund financial statements, governmental funds recognize bond premiums and discounts during the current period. The face amount of debt issued is reported as other financing sources. Premiums received on debt issuance are reported as other financing sources while discounts on debt issuances are reported as other financing uses. Issuance costs, whether or not withheld from the actual debt proceeds received, are reported as debt service expenditures.

Governmental long-term liabilities are financed from governmental funds for principal and interest.

**NASSAU COUNTY, FLORIDA
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2020**

■ **Proprietary Enterprise Funds**

Property and equipment purchased by the enterprise funds are capitalized by those funds. Depreciation on such assets is charged as an expense against each fund's operations. Depreciation has been provided over the estimated useful lives using the straight-line method. The estimated useful lives are as follows:

Buildings	15-40 Years
Equipment	3-20 Years

P. Capitalization of Interest Costs

When applicable, the County capitalizes interest costs related to construction of capital assets. For fiscal year ended September 30, 2020, no interest was capitalized.

Q. Deferred Inflows/Outflows of Resources

Deferred inflows of resources reported on applicable governmental fund types represent revenues which are measureable but not available in accordance with the modified accrual basis of accounting. The deferred inflows will be recognized as revenue in the fiscal year they are earned or become available. Deferred outflows of resources represent consumption of net position that is applicable to a future reporting period. Deferred outflows have a positive effect on net position, similar to assets.

R. Compensated Absences

Annual, sick, bonus, and compensatory leave amounts accumulate and vest in accordance with the policies of the Board of County Commissioners, Clerk of the Circuit Court, Tax Collector, Sheriff, Property Appraiser, Supervisor of Elections, and negotiated union contracts. Provisions of these policies and the union contracts specify how benefits are earned, accumulated, and when and to what extent they vest. For governmental activities, compensated absences are generally liquidated by the General Fund, the County Transportation Fund, the Municipal Services Fund, and the Building Department.

S. Other Postemployment Benefits

The County has recorded the liability in the government-wide statements and the enterprise funds for postemployment benefits other than pensions. For governmental activities, other postemployment benefits are generally liquidated by the General Fund, the County Transportation Fund, the Municipal Services Fund, and the Building Department. The financial reporting requirements for governments whose employees are provided with OPEB, include the recognition and measurement of liabilities, deferred outflows of resources, deferred inflows of resources, and expenses.

T. Net Pension Liability

In the government-wide and proprietary fund statements, the net pension liability represents the County's proportionate share of the net pension liability of the cost-sharing pension plans in which it participates. This liability represents a share of the present value of projected benefit payments to be provided through cost-sharing plans, less the amount of the cost-sharing plans' fiduciary net position. The County participates in both the Florida Retirement System (FRS) defined benefit pension plan and the Health Insurance Subsidy Program (HIS) defined benefit plan administered by the Florida Division of Retirement. The County allocated the net pension liability, deferred outflows of resources, deferred inflows of resources, and pension expense to the funds and functions/activities based on their respective contribution made to the pension plans for that fiscal year.

NASSAU COUNTY, FLORIDA
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2020

U. Property Taxes

Real property and tangible personal property are assessed by the Property Appraiser according to the property's just value on January 1st of each year. Section 200.071, Florida Statutes, authorizes the Board to levy ad valorem tax millage against real property and tangible personal property for the County, including dependent districts, not to exceed 10 mills, except for voted levies. The Board shall determine the amount of millage to be levied and shall certify such millage to the Property Appraiser. For the year ended September 30, 2020, the Board levied 7.4278 mills. An additional 2.3093 mills and 0.1021 was levied for the benefit of the Nassau County Municipal Services Taxing Unit and the Amelia Island Beach Renourishment MSTU, respectively.

Property taxes are due and payable on March 31st of each year or as soon thereafter as the assessment rolls are charged to the Tax Collector by the Property Appraiser. Taxes on real property may be prepaid in four quarterly installments beginning not later than June 30th of the year in which assessed. Discounts are allowed for payment of property taxes before March 1st. Taxes become delinquent on April 1st following the year in which the taxes were assessed.

The Tax Collector collects taxes for the various taxing entities, including the Board of County Commissioners. Delinquent taxes on real property are collected by selling tax certificates to individuals. If a tax certificate is not sold, the tax certificate is struck to the County. Attempts to collect delinquent taxes on tangible personal property are done by the issuance of warrants for the seizure and sale of such tangible personal property. Key dates in the property tax cycle (latest date where appropriate) are as follows:

January 1	Property Just Value Established for Assessment of Taxes.
July 1	Assessment Roll Certified, Unless Extension Granted by the Florida Department of Revenue.
93 Days Later	Millage Resolution Approved and Taxes Levied Thereafter as Tax Collector Received Tax Roll.
30 Days Thereafter	Property Taxes Become Due and Payable (Maximum Discount).
April 1	Taxes Become Delinquent.
Prior to June 1	Tax Certificates Sold.

V. Recent GASB Standards

The County is currently evaluating the effects that the following GASB Statements, which will be implemented in future financial statements, will have on its financial statements for subsequent fiscal years:

- Statement No. 87, "*Leases*." This Statement increases the usefulness of governments' financial statements by requiring recognition of certain lease assets and liabilities for leases that previously were classified as operating leases and recognized as inflows of resources or outflows of resources based on the payment provisions of the contract. It establishes a single model for lease accounting based on the foundational principle that leases are financings of the right to use an underlying asset. Under this Statement, a lessee is required to recognize a lease liability and an intangible right-to-use lease asset, and a lessor is required to recognize a lease receivable and a deferred inflow of resources, thereby enhancing the relevance and consistency of information about governments' leasing activities. This statement is currently under review and the County will consider the impact, if any, upon financial reporting. The provisions of this statement are effective for fiscal years beginning after June 15, 2021.

NASSAU COUNTY, FLORIDA
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2020

- Statement No. 89, *“Accounting for Interest Cost Incurred Before the End of a Construction Period.”* This Statement establishes accounting requirements for interest cost incurred before the end of a construction period. This Statement requires that interest cost incurred before the end of a construction period be recognized as an expense in the period in which the cost is incurred for financial statements prepared using the economic resources measurement focus. This statement is currently under review and the County will consider the impact, if any, upon financial reporting. The provisions of this statement are effective for fiscal years beginning after December 15, 2020.
- Statement No. 84, *Fiduciary Activities*”. This Statement establishes criteria for identifying fiduciary activities of all state and local governments. The focus of the criteria generally is on (1) whether a government is controlling the assets of the fiduciary activity and (2) the beneficiaries with whom a fiduciary relationship exists. Separate criteria are included to identify fiduciary component units and postemployment benefit arrangements that are fiduciary activities. An activity meeting the criteria should be reported in a fiduciary fund in the basic financial statements. This statement is currently under review and the County will consider the impact, if any, upon financial reporting. The provisions of this statement are effective for fiscal years beginning after December 15, 2019.

Note 2 - Cash and Investments

Deposits with Financial Institutions

The carrying amount of the County’s deposits with financial institutions was \$38,289,298 and the bank balances were \$41,056,289 at September 30, 2020. Deposits are placed in banks that qualify as public depositories pursuant to the provisions of Chapter 280, Florida Statutes, the *Florida Security for Public Deposits Act*. Qualified public depositories are required by this law to pledge collateral with a market value equal to a percentage of the average daily balance of all public deposits in excess of any federal deposit insurance. In event of default by a qualified public depository, all claims for public deposits would be satisfied by the State Treasurer from the proceeds of federal deposit insurance, pledged collateral of the public depository in default, and if necessary a pro rata assessment to the other qualified public depositories in the collateral pool. Therefore, all cash and time deposits held by banks are fully insured and collateralized.

Investments

Interest and investment earnings are generally allocated to the various funds based upon each fund’s equity balance in the pooled cash or the investment accounts.

The County’s investments conform to the provisions of Florida Statutes, Section 218.415. The following items discuss the County’s exposure to various risks of their investment portfolio.

Interest Rate Risk—The risk that changes in interest rates will adversely affect the fair value of an investment. The County has a formal investment policy for operating surplus funds that limits investment maturities to twelve months as a means of managing its exposure to fair value losses from increasing interest rates. Investments of bond reserves, construction funds, and other non-operating funds shall have a term appropriate to the need for funds and in accordance with debt covenants. The maturities of the underlying securities of a repurchase agreement will follow the requirements of a Master Repurchase Agreement in form approved by the Public Securities Association.

NASSAU COUNTY, FLORIDA
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2020

Custodial Credit Risk—For an investment, custodial credit risk is the risk that in the event of the failure of the counterparty, the County will not be able to recover the value of its investments or collateral securities that are in the possession of an outside party. The certificates of deposit and money market accounts are held in qualified public depositories or at levels below FDIC insurance thresholds.

In accordance with the provisions of Rule 62-701, *Florida Administrative Code*, the Board has established escrow accounts to provide proof of financial responsibility for the post-closure costs associated with the Old West Nassau and New West Nassau Landfills. The amounts in these escrow accounts are determined by engineering studies as required by the above rule, and are reported as cash and cash equivalents - restricted.

External Investment Pool—The County participates in the Florida Local Government Investment Trust (FLGIT) Short-term Bond Fund. The fund was created in December 12, 1991 through the joint efforts of the Florida Court Clerks and Comptrollers and the Florida Association of Counties. The fund is rated AA+ by Standard & Poor's. The weighted average maturity at September 30, 2020 was 2.00 years. The fund is structured to maintain safety of principal and maximize available yield through a balance of quality and diversification. Separately issued financial statements for the FLGIT Short-Term Bond Fund can be obtained from the Florida Local Government Investment Trust website (<https://www.floridatrustononline.com>).

Fair Value Measurements

The County categorizes its fair value measurements within the fair value hierarchy established by generally accepted accounting principles. The hierarchy is based on the valuation inputs used to measure the fair value of the asset. Level 1 inputs are quoted prices in active markets for identical assets; Level 2 inputs are significant other observable inputs; Level 3 inputs are significant unobservable inputs. The County's investments in certificates of deposits and money market accounts have remaining maturities at the time of purchase of one year or less, and are therefore reported at amortized cost. The FLGIT Short-Term Bond Fund is an external investment pool and is reported at Net Asset Value (NAV).

Governmental Activities

The County's governmental activities related bonds were offered for sale through a public offering and were not a direct borrowing or direct placements. A brief synopsis of long-term debt existing at September 30, 2020, follows:

2000 Optional Gas Tax Revenue Bonds

The Board, in September 2000, issued the Optional Gas Tax Revenue Bond in the amount of \$6,167,580. The proceeds of the bond issue are to pay the cost of acquisition and construction of certain transportation capital improvements in the County and to pay certain costs related to the issuance and sale of the Series 2000 Bonds. The 2000 Bonds are capital appreciation bonds; additional capital appreciation through September 30, 2020, totaled \$2,812,797.

The Series 2000 Bonds are special limited obligations of the County payable solely from and secured by a prior lien upon and pledge of the proceeds of the six-cent local option gas tax and until expended, the monies on deposit in certain funds and accounts created by resolution. Annual principal and interest on the bonds are expected to require approximately 48% of such tax revenue and are payable through 2025. Principal and interest payments for the current year totaled \$945,000 and gas tax revenues totaled \$1,971,302. At year-end, pledged future revenues totaled \$4,725,000, which was the amount of remaining principal and interest on the bonds. Other Board revenues are not available to finance this bond issue. In addition, the bondholders do not have any authority to compel the Board to increase ad valorem taxes for financing this bond issue. Such bonds, bearing interest at a rate between 5.55% to 5.81% per annum, are dated August 30, 2000, and are in denominations of \$5,000 each. A portion of such bonds mature annually starting March 1, 2010, with final maturity being March 1, 2025. The bonds have a required reserve of \$945,000, which is on hand at year-end.

Future principal and interest payments for this bond issue are as follows:

<u>Year Ending September 30,</u>	<u>Principal</u>	<u>Interest</u>	<u>Total</u>

2007 Public Improvement Revenue Refunding Bonds

The Board, in June 2007, issued the Public Improvement Revenue and Refunding Bonds, Series 2007, in the amount of \$29,630,000. The purposes of the Series 2007 Bonds are to: (1) acquire and construct certain public improvements; (2) partially advance refund the Board's outstanding Public Improvement Revenue Bonds, Series 2001; and (3) pay certain issuance costs of the Series 2007 Bonds, including the municipal bond insurance premium.

NASSAU COUNTY, FLORIDA
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2020

The Series 2007 Bonds are special obligations of the Board payable solely from amounts budgeted and appropriated by the Board from non-ad valorem tax revenues in accordance with the terms of the resolution. Annual principal and interest on the bonds are expected to require approximately 30% of such non ad valorem tax revenue and are payable through 2031. Principal and interest payments for the current year totaled \$2,324,750 and non-ad valorem tax revenues totaled \$7,839,737. At year-end, pledged future revenues totaled \$25,557,500, which was the amount of remaining principal and interest on the bonds. Other Board revenues are not available to finance this bond issue.

In addition, the bondholders do not have any authority to compel the Board to increase ad valorem taxes for financing this bond issue. Such bonds, bearing interest rates between 4.0% and 5.0% per annum, are dated June 12, 2007, and are in denominations of \$5,000 each. A portion of such bonds mature annually beginning May 2008, with term maturities in May of 2023, 2025, 2027, and 2031.

Advance Refunding—On April 9, 2013, the Board issued through a direct placement a \$15,650,000 Water and Sewer System Revenue Refunding Bond, Series 2013, with a fixed interest rate of 2.150%. The net proceeds from the closing were used to refund \$15,550,000 in principal in the amount of the County's outstanding Revenue Note, Series 2003, and to pay the issuance costs of the Series 2013 Bond.

The revenue bond is secured by a pledge of and is payable solely from pledged revenues, which primarily consist of net revenues and impact fees which derive from the Water and Sewer Utility System (the System). Annual principal and interest on the bond is expected to require approximately 61% of such revenue and are payable through 2028. Principal and interest payments for the current year totaled \$1,194,466, and revenues totaled \$2,136,825. At year-end, pledged future revenues totaled \$9,556,150, which was the amount of remaining principal and interest on the bond. The Series 2013 Bond shall not be or constitute a general obligation or indebtedness of the County.

Rate Covenant

The County has covenanted to establish and collect fees from users of the Water and Sewer System (gross revenues of the System, as defined in the bond ordinance) sufficient to pay the costs of operation and maintenance of the System (as defined in the bond ordinance) plus 120% of the bond service requirements for that year. The County met the 120% requirement and, therefore, is in compliance with the rate covenant at year-end.

Future principal and interest payments for this bond issue are as follows:

Note 9 - Bond Arbitrage Rebate

The County engaged an independent certified public accounting firm to compute the aggregate arbitrage rebate amount in accordance with the requirements of Section 148(f) of the Internal Revenue Code of 1986 for the following bond issues:

- \$29,630,000 Nassau County, Florida, Public Improvement Revenue and Refunding, Series 2007.
- \$19,160,000 Nassau County, Florida, Water and Sewer System Revenue Bonds, Series 2013.
- \$6,213,421 Nassau County, Florida, Gas Tax Revenue Bond, Series 2009-1.
- \$11,169,000 Nassau County, Florida, SAISSA Re-Nourishment Bond, Series 2011.

The payment of arbitrage rebate is made sixty days after five years from the date of issuance of the bonds. Based on their calculations, the independent certified public accounting firm had determined that there is no rebate liability for the bond issues noted above.

Note 10 - Landfill Post-Closure Care Costs

State and federal laws require the County to fund landfill post-closure care costs once a landfill site stops accepting waste and to perform certain maintenance and monitoring functions at the landfill sites for twenty years if the landfill stopped receiving waste before October 9, 1993, and thirty years if the landfill stopped receiving waste after October 9, 1993. The County has three landfills that stopped receiving waste before October 9, 1993, and one that stopped receiving waste after October 9, 1993. The County does not currently operate an open landfill.

For the closed landfills, actual post-closure care cost incurred for each year is reported as a reduction of the post-closure liability, along with the change in required escrow balance until the required twenty-or-thirty-year post-closure care period is satisfied. The Board has accrued a total of \$16,337,291 for post-closure care cost at September 30, 2020, for the two closed landfills. The liability is based on engineering estimates of annual post-closure care cost.

NASSAU COUNTY, FLORIDA
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2020

These post-closure care costs are based on estimates of what it would cost to perform all post-closure care using 2020 dollars. Actual costs may be higher due to inflation, changes in technology, or changes in regulations.

The Board is required by state law to deposit into the escrow accounts, at the time of closing and each year thereafter, sufficient funds to cover the following year's long-term care costs. In addition, the Board must document specifically how it intends to finance the long-term care of the landfill as part of its closure plan. The Board is in compliance with these requirements with escrow balances that exceed the amounts required by state law (amounts required by state law are \$729,291 as of September 30, 2020). At September 30, 2020, the actual escrow balances are as follows:

Landfills	
Old West Nassau Post-Closure	\$ 43,681
New West Nassau Post-Closure	<u>686,331</u>
Total Escrow Balances	<u><u>\$ 730,012</u></u>

Note 11 - Retirement Plans

The County participates in two defined benefit pension plans that are administered by the State of Florida, Department of Management Services, Division of Retirement. The plans provide retirement, disability, or death benefits to retirees or their designated beneficiaries. Chapter 121, Florida Statutes, establishes the authority for benefit provisions. Changes to the law can only occur through an act of the Florida Legislature. The State of Florida issues a publicly available financial report that includes financial statements and required supplementary information for the plans. That report is available from the Florida Department of Management Services' website (www.dms.myflorida.com).

The Florida Retirement System (FRS) Pension Plan is a cost-sharing, multiple-employer defined benefit pension plan with a Deferred Retirement Option Program (DROP) available for eligible employees. The FRS was established and is administered in accordance with Chapter 121, Florida Statutes. Retirees receive a lifetime pension benefit with joint and survivor payment options. FRS membership is compulsory for employees filling regularly established positions in a state agency, county agency, state university, state college, or district school board, unless restricted from FRS membership under Sections 121.053 or 121.122, Florida Statutes, or allowed to participate in a defined contribution plan in lieu of FRS membership. Participation by cities, municipalities, special districts, charter schools and metropolitan planning organizations is optional.

The Retiree Health Insurance Subsidy (HIS) Program is a cost-sharing, multiple-employer defined benefit pension plan established and administered in accordance with Section 112.363, Florida Statutes. The benefit is a monthly payment to assist retirees of the state-administered retirement systems in paying their health insurance costs. To be eligible to receive a HIS benefit, a retiree under a state administered retirement system must provide proof of eligible health insurance coverage, which can include Medicare.

NASSAU COUNTY, FLORIDA
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2020

Benefits Provided

Benefits under the FRS Pension Plan are computed on the basis of age and/or years of service, average final compensation, and service credit. Credit for each year of service is expressed as a percentage of the average final compensation. For members initially enrolled before July 1, 2011, the average final compensation is the average of the five highest fiscal years' earnings; for members initially enrolled on or after July 1, 2011, the average final compensation is the average of the eight highest fiscal years' earnings.

The total percentage value of the benefit received is determined by calculating the total value of all service, which is based on the retirement plan and/or class to which the member belonged when the service credit was earned.

Eligible retirees and beneficiaries receive a monthly HIS payment equal to the number of years of service credited at retirement multiplied by \$5. The minimum payment is \$30 and the maximum payment is \$150 per month, pursuant to Section 112.363, Florida Statutes.

The contribution requirements of plan members and the employer are established and may be amended by the Florida Legislature. Employees are required to contribute 3.00% of their salary to the FRS Pension Plan. The employer's contribution rates as of September 30, 2020, were as follows:

	<u>FRS</u>	<u>HIS</u>
Regular Class	8.34%	1.66%
Special Risk Class	22.79%	1.66%
Senior Management Service Class	25.63%	1.66%
Elected Officials	47.52%	1.66%
DROP from FRS	15.32%	1.66%

The County's contributions for the year ended September 30, 2020, were \$6,932,819 to the FRS Pension Plan and \$741,500 to the HIS Program.

Pension Liabilities and Pension Expense

In its financial statements for the year ended September 30, 2020, the County reported a liability for its proportionate share of the net pension liability of the FRS Pension Plan and its proportionate share of the net pension liability of the HIS Program. The net pension liabilities were measured as of June 30, 2020. The County's proportions of the net pension liabilities were based on its share of contributions to the pension plans relative to the contributions of all participating entities, actuarially determined.

Actuarial Assumptions

The total pension liability for each of the defined benefit plans was measured as of June 30, 2020. The total pension liability for the FRS Pension Plan was determined by an actuarial valuation dated July 1, 2020. For the HIS Program, the total pension liability was determined by an actuarial valuation dated July 1, 2020.

The individual entry age normal actuarial cost method was used for each plan, along with the following significant actuarial assumptions:

	FRS	HIS
Inflation	2.40%	2.40%
Salary Increases	3.25%	3.25%
Investment Rate of Return	6.80%	N/A
Discount Rate	6.80%	2.21%

Mortality assumptions for FRS Pension Plan were based on the PUB2010 base table varying by member category and sex, project generationally with Scale MP-2018. The HIS Plan was based on the Generational RP-2000 with Projection Scale BB.

NASSAU COUNTY, FLORIDA
NOTES TO FINANCIAL STATEMENTS
SEPTEMBER 30, 2020

For both plans, the actuarial assumptions were based on the results of an actuarial experience study for the period July 1, 2013 through June 30, 2018.

The long-term expected rate of return on pension plan investments was not based on historical returns, but instead is based on a forward-looking capital market economic model. The allocation policy's description of each asset class was used to map the target allocation to the asset classes shown below. Each asset class assumption is based on a consistent set of underlying assumptions, and includes an adjustment for the inflation assumption. The target allocation and best estimates of arithmetic and geometric real rates of return for each major asset class are summarized in the following table:

Asset Class	Target Allocation (1)	Annual Arithmetic Return	Annual (Geometric) Return	Standard Deviation
Cash	1.0%	2.2%	2.2%	1.2%
Fixed Income	19.0%	3.0%	2.9%	3.5%
Global Equity	54.2%	8.0%	6.7%	17.1%
Real Estate (Property)	10.3%	6.4%	5.8%	11.7%
Private Equity	11.1%	10.8%	8.1%	25.7%
Strategic Investments	4.4%	5.5%	5.3%	6.9%
Assumed Inflation – Mean			2.4%	1.7%

Note: (1) As Outlined in the Plan's Investment Policy.

Discount Rate. The discount rate used to measure the total pension liability for the FRS Pension Plan was 6.80%. The Plan's fiduciary net position was projected to be available to make all projected future benefit payments of current active and inactive employees. Therefore, the long-term expected rate of return on pension plan investments was applied to all periods of projected benefit payments to determine the total pension liability.

The discount rate used to measure the total pension liability for the HIS Pension Plan was 2.21%. In general, the discount rate for calculating the total pension liability is equal to the single rate equivalent to discounting at the long-term expected rate of return for benefit payments prior to the projected depletion date. Because the HIS benefit is essentially funded on a pay-as-you-go basis, the depletion date is considered to be immediate, and the single equivalent discount rate is equal to the municipal bond rate selected by the HIS Plan sponsor. The Bond Buyer General Obligation 20-Bond Municipal Bond Index was adopted as the applicable municipal bond index.

Sensitivity of the County's Proportionate Share of the Net Position Liability to Changes in the Discount Rate. The following tables demonstrate the sensitivity of the net pension liability to changes in the discount rate. The sensitivity analysis shows the impact to the employer's proportionate share of the net pension liability if the discount rate was 1.00% higher or 1.00% lower than the current discount rate.

FRS – Defined Contribution Pension Plan

The County contributes to the FRS Investment Plan (Investment Plan), a defined contribution pension plan, for its eligible employees electing to participate in the Investment Plan. The Investment Plan is administered by the SBA, and is reported in the SBA's annual financial statements and in the State of Florida Comprehensive Annual Financial Report. Service retirement benefits are based upon the value of the member's account upon retirement.

As provided in Section 121.4501, Florida Statutes, eligible FRS members may elect to participate in the Investment Plan in lieu of the FRS defined-benefit plan. County employees participating in DROP are not eligible to participate in the Investment Plan. Employer and employee contributions, including amounts contributed to individual member's accounts, are defined by law, but the ultimate benefit depends in part on the performance of investment funds. Benefit terms, including contribution requirements, for the Investment Plan are established and may be amended by the Florida Legislature. The Investment Plan is funded with the same employer and employee contribution rates that are based on salary and membership class (Regular Class, Elected County Officers, etc.), as the FRS defined benefit plan. Contributions are directed to individual member accounts, and the individual members allocate contributions and account balances among various approved investment choices. Allocations to the investment member's accounts during the 2019-20 fiscal year were as follows:

Class	Percent of Gross Salary	
	Employee	Employer
FRS, Regular	3.00	3.30
FRS, Elected County Officers	3.00	8.34
FRS, Senior Management Service	3.00	4.67
FRS, Special Risk Class	3.00	11.00

For all membership classes, employees are immediately vested in their own contributions and are vested after one year of service for employer contributions and investment earnings. If an accumulated benefit obligation for service credit originally earned under the FRS Pension Plan is transferred to the Investment Plan, the member must have the years of service required for FRS Pension Plan vesting (including the service credit represented by the transferred funds) to be vested for these funds and the earnings on the funds. Non-vested employer contributions are placed in a suspense account for up to five years. If the employee returns to FRS-covered employment within the five year period, the employee will regain

NASSAU COUNTY, FLORIDA
NOTES TO FINANCIAL STATEMENTS

control over their account. If the employee does not return within the five year period, the employee will forfeit the accumulated account balance. Costs of administering the Investment Plan, including the FRS Financial Guidance Program, are funded through an employer contribution of 0.04% of payroll and by forfeited benefits of Investment Plan members. For the fiscal year ended September 30, 2020, the information for the amount of forfeitures was unavailable from the SBA; however, management believes that these amounts, if any, would be immaterial to the County.

After termination and applying to receive benefits, the member may rollover vested funds to another qualified plan, structure a periodic payment under the Investment Plan, receive a lump-sum distribution, leave the funds invested for future distribution, or any combination of these options. Disability coverage is provided; the member may either transfer the account balance to the FRS Pension Plan when approved for disability retirement to receive guaranteed lifetime monthly benefits under the FRS Pension Plan, or remain in the Investment Plan and rely upon that account balance for retirement income.

The County's Investment Plan pension expense totaled \$1,072,858 for the fiscal year ended September 30, 2020.

Note 12 - Deferred Compensation Plan

The County, in accordance with Section 112.215, Florida Statutes, maintains a deferred compensation plan pursuant to the provisions of Internal Revenue Code Section 457. The plan, available to all employees of the County, permits such employees to defer a portion of their salaries until future years. Participation in the plan is optional. The deferred compensation plan amount is not available for withdrawal by employee participants until termination, retirement, death, or unforeseeable emergency of such participants.

The County has contracted with a third party for the establishment of custodial accounts to administer these funds for the exclusive benefit of participants and their beneficiaries. The County has no administrative involvement, and does not perform the investing function for this plan.

Note 13 - Other Postemployment Benefits (OPEB)

Plan Description

The OPEB Plan is a single-employer benefit plan administered by the County. Retirees are charged whatever the insurance company charges for the type of coverage elected. However, the premiums charged by the insurance company are based on a blending of the experience among younger active employees and older retired employees.

Retirees and their dependents (except for life insurance) are permitted to remain covered under the County's respective medical and insurance plans as long as they pay a full premium applicable to coverage elected, subject to the direct subsidy in the following table. This conforms to the minimum required of Florida governmental employers per Chapter 112.08, Florida Statutes. The OPEB Plan does not issue a stand-alone report and is not included in the report of the System or other entity.

Funding Policy—For the OPEB Plan, contribution requirements of the County are established and may be amended through action from either the Board or Constitutional Officers. Currently, the County's OPEB Benefits are unfunded. The required contributions are based on pay-as-you-go financing requirements. There is no separate trust fund or equivalent arrangement into which the County would make contributions to advance-fund the obligation, as it does for its pension plan, the System. Therefore, ultimate subsidies which are provided over time are financed directly by general assets of the County, which are invested in very short-term income instruments.

Actuarial Methods and Assumptions

Projections of benefits for financial reporting purposes are based on the substantive plan (the plan as understood by the employer and the plan members) and include the types of benefits provided at the time of the valuation and the historical pattern of sharing benefit costs between the employer and plan members. The actuarial methods and assumptions used include techniques that are designed to reduce the effects of short-term volatility in actuarial accrued liabilities and the actuarial value of assets, consistent with the long-term perspective of the calculations. For plans that are not funded, the discount rate should equal the tax-exempt municipal bond rate based on an index of 20-year general obligation bonds with an average AA credit rating as of the measurement date. For the purposes of the actuarial roll-forward, the municipal bond rate is 2.75% (based on the daily rate of Fidelity's "20-Year Municipal GO AA Index" closest to but not later than the measurement date. The discount rate was 3.83% in the prior year.

Minimum Fund Balance Reserve Policy

The County has adopted a policy that requires a reserve for minimum fund balance be budgeted at a target level equal to two months of County-wide operating expenditures as reported in the previous year's audited financial statements for the General Fund, County Transportation Fund, and Municipal Services Fund. The purpose of the minimum fund balance is to protect the County against potential financial risk, ensure cash flow prior to receipt of budgeted revenue for use in the event of a disaster or emergency, and to protect the County's credit rating.

Note 15 - Risk Management

The County is exposed to various risks of loss related to legal liability, theft of, damage to, and destruction of assets; accidental death and dismemberment, and on the job injury to employees. Many of these risks are transferred through the purchase of various insurance coverage. Settled claims from these risks have not exceeded insurance coverage for the past three years.

The financial liability of the County is limited to premiums paid and losses exceeding or not covered by insurance. The premiums are paid from various funds based on coverage required.

There has been no reduction in insurance coverages from the previous year.

Note 17 - Conduit Debt Obligations

The County has issued several series of industrial revenue bonds to furnish financial assistance to private sector entities for the acquisition and construction of industrial and commercial facilities considered to be in the public interest. The bonds are secured by the property financed and are payable solely from payments received on the underlying mortgage loans. Upon repayment of the bonds, ownership of the acquired facilities will transfer to the private sector entity served by the bond issuance. Neither the Board, the County, the State, nor any political subdivision thereof is obligated in any manner for repayment of the bonds. Accordingly, the bonds are not reported as liabilities in the accompanying financial statements.

As of September 30, 2020, there was one series of such bonds outstanding with a principal amount payable of \$9,280,000. The issue amount and the September 30, 2020, outstanding balance is as follows:

NASSAU COUNTY, FLORIDA
NOTE TO SCHEDULES OF REVENUES, EXPENDITURES, AND
CHANGES IN FUND BALANCES – BUDGET AND ACTUAL
FOR THE YEAR ENDED SEPTEMBER 30, 2020

Budgets and Budgetary Accounting

Budgets were adopted by the Board for all Board funds. The Tax Collector and the Property Appraiser adopt budgets independently of the Board. The Sheriff, Supervisor of Elections, and the Clerk of the Circuit Court (to the extent of his function as ex officio Clerk of the Board) prepare budgets for their general operations, which are submitted to and approved by the Board.

The County-wide General Fund is comprised of the following six subfunds: Board of County Commissioners, Clerk of the Circuit Court, Property Appraiser, Sheriff, Supervisor of Elections, and Tax Collector. In order to comply with the generally accepted accounting principles, the actual intra-fund activity has been consolidated in order to eliminate inflated amounts in the aggregate financial statements of the County-wide General Fund.

Chapter 129, Florida Statutes, provides that it is unlawful to make expenditures that exceed the total amount budgeted for each fund. The Board adopted a level of control at the object level (personal services, operating expenses, and capital outlay) by department by fund. Chapter 129, Florida Statutes, also governs the manner in which the budget may be legally amended once it has been approved. Department managers may make budget amendments within an object level without Board approval; budget amendments between object levels up to \$50,000 can be approved by the County Budget Officer and County Administrator. Budget amendments greater than \$50,000 require Board approval.

Encumbrance accounting, under which purchase orders, contracts, and other commitments for the expenditure of monies are recorded in order to reserve that portion of the applicable appropriation, is employed by the County, as an extension of the statutorily required budgetary process under Florida Statutes. The County maintained a computerized encumbrance system, which is a part of the computerized accounting system. All appropriations lapse at year-end, except those that the County intends to honor.

Budgets are adopted on the modified accrual basis of accounting, which is consistent with accounting principles generally accepted in the United States of America (GAAP). The only exception to the GAAP basis is in the enterprise funds where depreciation, amortization of bond costs, and change in post-closure costs are not budgeted, while capital outlay expenditures are budgeted and are reclassified into capital assets. These are then eliminated from the results of operations for financial reporting purposes in the enterprise funds.

The annual budgets serve as legal authorization for expenditures. Expenditures cannot legally exceed the total amount budgeted for each fund. All budget amendments, which change the legally adopted total appropriation for a fund, are approved by the Board or Constitutional Officer, as applicable.

If during the fiscal year, additional revenues become available for appropriations in excess of those estimated in the budget, the Board or Constitutional Officer, by resolution, may make supplemental appropriations for the year up to the amount of such excess. During the fiscal year ended September 30, 2020, various supplemental appropriations were approved by the Board or Constitutional Officer in accordance with Florida Statutes. The following funds received supplemental appropriations during the year ended September 30, 2020:

Governmental Funds	
General Fund	\$ 16,600,908
Special Revenue Funds	5,769,100

Notes to the Schedule

No assets are being accumulated in a trust to pay for the benefits.

Valuation Date: September 30, 2018

Measurement Date: September 30, 2019

Roll Forward Procedures: The Total OPEB Liability was rolled forward twelve months from the Valuation Date to the Measurement Date using standard actuarial techniques.

Note: Covered Payroll presented above for the 2018 measurement year, is an estimate based on data submitted for the September 30, 2018 valuation. GASB Statement No. 75 defined Covered-Employee Payroll as the payroll of employees that are provided with OPEB through the OPEB plan, including employees terminating during the measurement period.

The discount rate was changed from 3.83% as of the previous measurement date to 2.75% as of September 30, 2019. This change is reflected in the Schedule of Changes in Total OPEB Liability.

NASSAU COUNTY, FLORIDA
NOTE TO SCHEDULE OF EXPENDITURES OF FEDERAL AWARDS
AND STATE FINANCIAL ASSISTANCE
FOR THE YEAR ENDED SEPTEMBER 30, 2020

Note 1 - Basis of Presentation

The accompanying schedule of expenditures of federal awards and state financial assistance includes the state award activity of Nassau County, Florida, and is presented on the modified accrual basis of accounting.

During the year ended September 30, 2020, FEMA approved \$35,872 of eligible expenditures that were incurred in a prior year and are included in the accompanying schedule of expenditures of federal awards and state financial assistance.

Nassau County did not elect to use the 10% de minimis indirect cost rate in Section 200.44, Indirect (F&A) Costs, of the Uniform Guidance.

**REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND
STATE PROJECT AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY
THE UNIFORM GUIDANCE AND CHAPTER 10.550, RULES OF THE AUDITOR GENERAL**

The Honorable Board of County Commissioners
and Constitutional Officers
Nassau County, Florida

Report on Compliance for Each Major Federal Award and State Project

We have audited Nassau County, Florida's (the County) compliance with the types of compliance requirements described in the OMB *Compliance Supplement* and the requirements described in the Department of Financial Services' *State Projects Compliance Supplement*, that could have a direct and material effect on each of the County's major federal programs and state projects for the year ended September 30, 2020. The County's major federal programs and state projects are identified in the summary of auditor's results section of the accompanying schedule of findings and questioned costs.

Management's Responsibility

Management is responsible for compliance with the Federal and State statutes, regulations, and the terms and conditions of its Federal awards and State projects.

Auditor's Responsibility

Our responsibility is to express an opinion on compliance for each of the County's major Federal programs and State projects based on our audit of the types of compliance requirements referred to above. We conducted our audit of compliance in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance), and Chapter 10.550, *Rules of the Auditor General*. Those standards, the Uniform Guidance and Chapter 10.550, *Rules of the Auditor General*, require that we plan and perform the audit to obtain reasonable assurance about whether non-compliance with the types of compliance requirements referred to above that could have a direct and material effect on a major Federal program or State project occurred. An audit includes examining, on a test basis, evidence about the County's compliance with those requirements and performing such other procedures as we considered necessary in the circumstances.

We believe that our audit provides a reasonable basis for our opinion on compliance for each major Federal program and State project. However, our audit does not provide a legal determination of the County's compliance.

**REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND
STATE PROJECT AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY
THE UNIFORM GUIDANCE AND CHAPTER 10.550, RULES OF THE AUDITOR GENERAL**

Opinion on Each Major Federal Program and State Project

In our opinion, the County complied, in all material respects, with the types of compliance requirements referred to above that could have a direct and material effect on each of its major Federal programs and State projects for the year ended September 30, 2020.

Report on Internal Control Over Compliance

Management of the County is responsible for establishing and maintaining effective internal control over compliance with the types of compliance requirements referred to above. In planning and performing our audit of compliance, we considered the County's internal control over compliance with the types of requirements that could have a direct and material effect on each major Federal program or State project to determine the auditing procedures that are appropriate in the circumstances for the purpose of expressing an opinion on compliance for each major Federal program and State project and to test and report on internal control over compliance in accordance with the *Uniform Guidance* and Chapter 10.550, *Rules of the Auditor General*, but not for the purpose of expressing an opinion on the effectiveness of internal control over compliance. Accordingly, we do not express an opinion on the effectiveness of the County's internal control over compliance.

A deficiency in internal control over compliance exists when the design or operation of a control over compliance does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, non-compliance with a type of compliance requirement of a federal program or state project on a timely basis. *A material weakness in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance, such that there is a reasonable possibility that material non-compliance with a type of compliance requirement of a federal program or state project will not be prevented, or detected and corrected, on a timely basis. *A significant deficiency in internal control over compliance* is a deficiency, or a combination of deficiencies, in internal control over compliance with a type of compliance requirement of a federal program or state project that is less severe than a material weakness in internal control over compliance, yet important enough to merit attention by those charged with governance.

Our consideration of internal control over compliance was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control over compliance that might be material weaknesses or significant deficiencies. We did not identify any deficiencies in internal control over compliance that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

**REPORT ON COMPLIANCE FOR EACH MAJOR FEDERAL PROGRAM AND
STATE PROJECT AND REPORT ON INTERNAL CONTROL OVER COMPLIANCE REQUIRED BY
THE UNIFORM GUIDANCE AND CHAPTER 10.550, *RULES OF THE AUDITOR GENERAL***

Purpose

The purpose of this report on internal control over compliance is solely to describe the scope of our testing of internal control over compliance and the results of that testing based on the requirements of the Uniform Guidance and Chapter 10.550, *Rules of the Auditor General*. Accordingly, this report is not suitable for any other purpose.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARDS***

The Honorable Board of County Commissioners
and Constitutional Officers
Nassau County, Florida

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the governmental activities, the business-type activities, each major fund, and the aggregate remaining funds information of Nassau County, Florida (the County) as of and for the year ended September 30, 2020, and the related notes to the financial statements, which collectively comprise the County's basic financial statements, and have issued our report thereon dated March 19, 2021.

Internal Control Over Financial Reporting

In planning and performing our audit, we considered the County's internal control over financial reporting (internal control) as a basis for designing audit procedures that are appropriate in the circumstances for the purpose of expressing our opinions on the financial statements, but not for the purpose of expressing an opinion on the effectiveness for the County's internal control. Accordingly, we do not express an opinion on the effectiveness of the County's internal control.

A *deficiency in internal control* exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent or detect and correct misstatements on a timely basis. A *material weakness* is a deficiency, or combination of deficiencies, in internal control such that there is a reasonable possibility that a material misstatement of the County's financial statements will not be prevented, or detected and corrected on a timely basis. A *significant deficiency* is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weaknesses, yet important enough to merit attention by those charged with governance.

**INDEPENDENT AUDITOR'S REPORT ON INTERNAL CONTROL OVER
FINANCIAL REPORTING AND ON COMPLIANCE AND OTHER MATTERS
BASED ON AN AUDIT OF FINANCIAL STATEMENTS PERFORMED
IN ACCORDANCE WITH *GOVERNMENT AUDITING STANDARD***

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies and, therefore, material weaknesses or significant deficiencies may exist that have not been identified. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. We did identify a deficiency in internal control, disclosed in the individual report of the Board of County Commissioners as an item that we consider to be a significant deficiency.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether the County's financial statements are free of material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, non-compliance with which could have a direct and material effect on the financial statement. However, providing an opinion on compliance with those provisions was not an objective of our audit and, accordingly, we do not express such an opinion. The results of our tests disclosed no instances of non-compliance or other matters that are required to be reported under *Government Auditing Standards*.

We noted certain matters that were reported to management in a separate management letter dated March 19, 2021.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the County's internal control on or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the County's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.

INDEPENDENT ACCOUNTANT'S REPORT ON COMPLIANCE WITH SECTION 218.415, FLORIDA STATUTES

The Honorable Board of County Commissioners
and Constitutional Officers
Nassau County, Florida

We have examined Nassau County, Florida's, (the County) compliance with Section 218.415, Florida Statutes, as of and for the year ended September 30, 2020, as required by Section 10.556(10)(a), *Rules of the Auditor General*. Management is responsible for the County's compliance with those requirements. Our responsibility is to express an opinion on the County's compliance based on our examination.

Our examination was conducted in accordance with attestation standards established by the American Institute of Certified Public Accountants. Those standards require that we plan and perform the examination to obtain reasonable assurance about whether the County complied, in all material respects, with the specified requirements referenced above. An examination involves performing procedures to obtain evidence about whether the County complied with the specified requirements. The nature, timing, and extent of the procedures selected depend on our judgment, including an assessment of the risks of material non-compliance, whether due to fraud or error. We believe that the evidence we obtained is sufficient and appropriate to provide a reasonable basis for our opinion.

Our examination does not provide a legal determination on the County's compliance with specified requirements.

In our opinion, the County complied, in all material respects, with the aforementioned requirements for the year ended September 30, 2020.

Pursuant to Chapter 119, Florida Statutes, this letter is a public record and its distribution is not limited. Auditing standards accepted in the United States of America requires us to indicate that this letter is intended solely for the information and use of management, and the Florida Auditor General, and is not intended to be and should not be used by anyone other than these specified parties.

MANAGEMENT LETTER

The Honorable Board of County Commissioners
and Constitutional Officers
Nassau County, Florida

Report on the Financial Statements

We have audited the financial statements of Nassau County, Florida (the County), as of and for the fiscal year ended September 30, 2020, and have issued our report thereon dated March 19, 2021.

Auditor's Responsibility

We conducted our audit in accordance with auditing standards generally accepted in the United States of America; the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States; the audit requirements of Title 2 U.S. *Code of Federal Regulations* Part 200, *Uniform Administrative Requirements, Cost Principles, and Audit Requirements for Federal Awards* (Uniform Guidance) and Chapter 10.550, *Rules of the Auditor General*.

Other Reporting Requirements

We have issued our Independent Auditor's Report on Internal Control over Financial Reporting and Compliance and Other Matters Based on an Audit of the Financial Statements Performed in Accordance with *Government Auditing Standards*, Independent Auditor's Report on Compliance for Each Major Federal Program and State Project and Report on Internal Control Over Compliance; Schedule of Findings and Questioned Costs; and Independent Accountant's Reports on an Examination Conducted in Accordance with AICPA Professional Standards, AT-C Section 315, regarding compliance requirements in accordance with Chapter 10.550, *Rules of the Auditor General*. Disclosures in those reports, which are dated March 19, 2021, should be considered in conjunction with this management letter.

Prior Audit Findings

- Section 10.554(1)(i)1., *Rules of the Auditor General*, requires that we determine whether or not corrective actions have been taken to address findings and recommendations made in the preceding annual financial audit report. Corrective actions have been taken to address finding 2019-01 made in the preceding financial report of the Board.

Official Title and Legal Authority

- Section 10.554(1)(i)4., *Rules of the Auditor General*, requires that the name or official title and legal authority for the primary government and each component unit of the reporting entity be disclosed in this management letter, unless disclosed in the notes to the financial statements. The County was established by the Constitution of the State of Florida, Article VIII, Section 1(d). The County includes component units as described in Note 1 of the financial statements.

MANAGEMENT LETTER

Financial Condition and Management

- Sections 10.554(1)(i)5.a. and 10.556(7), *Rules of the Auditor General*, require us to apply appropriate procedures and communicate the results of our determination as to whether or not the County met one or more of the conditions described in Section 218.503(1), Florida Statutes, and identification of the specific conditions met. In connection with our audit, we determined that the County did not meet any of the conditions described in Section 218.503(1), Florida Statutes.
- Pursuant to Sections 10.554(1)(i)5.b. and 10.556(8), *Rules of the Auditor General*, we applied financial condition assessment procedures for the County. It is management's responsibility to monitor the County's financial condition, and our financial condition assessment was based in part on representations made by management and the review of financial information provided by the same.
- Section 10.554(1)(i)(2)., *Rules of the Auditor General*, requires that we communicate any recommendations to improve financial management. In connection with our audit, we did have a recommendation as referenced in the Board report.

Special District Component Units

- Section 10.554(1)(i)5.c., *Rules of the Auditor General*, requires, if appropriate, that we communicate the failure of a special district that is a component unit of a county, municipality, or special district, to provide the financial information necessary for proper reporting of the component unit within the audited financial statement of the county, municipality, or special district in accordance with Section 218.39(3)(b), Florida Statutes. In connection with our audit, we did not note any special district component units that failed to provide the necessary information for proper reporting in accordance with Section 218.39(3)(b), Florida Statutes.

Additional Matters

- Section 10.554(1)(i)3., *Rules of the Auditor General*, requires that we address non-compliance with provisions of contract or grant agreements, or abuse, that have occurred, or are likely to have occurred, that have an effect on the financial statements that is less than material but which warrants the attention of those charged with governance. In connection with our audit, we did not have any such findings.

Purpose of the Letter

- Our management letter is intended solely for the information and use of the Legislative Auditing Committee, members of the Florida Senate and the Florida House of Representative, the Florida Auditor General, Federal and other granting agencies, the Board of County Commissioners, and applicable management, and is not intended to be and should not be used by anyone other than these specified parties.
